With many styles to choose from the advantages of aluminium over timber are many; our aluminium will not rot, warp in the sun, split and crack, flake or peel or be eaten by termites.

We work with higher tolerances in aluminium than in timber so the end product is precisely manufactured.

Our design and manufacturing team will help you realize your vision and with over 70 powder coat colours to choose from, there is no one better than us to entrust your project to.

# Automatic / Manual Aluminium Gates

At **Complete Barrier Solutions** we offer a great range of manual or automatic driveway or personal entrance gates for any budget.

Starting from the very affordable baluster panel section we have a great range of styles and colours to choose from.

## Personal Entrance Gates

These gates can be fabricated to suit your requirements whether it's the contemporary slat / louvred panels or baluster look, your home will look stylish.

For a more up market look we have available the very modern contemporary look powder coated aluminium horizontal slat panels which are welded and a great new look for driveway, personal entrance gates and boundary fences. Options are available to have the spacing between the slats at 9mm or 20mm giving you added privacy and security.

## Swing Gates

We offer a complete service with our single or double swing gates from conception to completion. Using our in-house CAD technology we will design and engineer your gates not only to look great but function beautifully whether they're automatic or manual.

## Sliding Gates

As with swing gates we offer a total package. We utilise only the best electronic components ensuring our gate will meet your exact requirements. Automatic sliding gates are great for that wet day, no one needs to get wet unlocking the gates when arriving home simply push a button and you're in. These very popular gates can add real value to your home whilst increasing security.
